

Estate Planning

At Britton G. Swank, P.A., we devote a significant portion of our practice to estate planning. We believe in taking the time to understand each client's unique needs and goals, and tailor estate plans and documents to provide peace of mind for the future.

Guardianship

When a loved one is unable to care for themselves and has no estate planning documents, or refuses to cooperate with the person appointed in their estate planning documents, guardianship may be necessary. We can help you determine when a guardian should be appointed to watch over that person's financial and personal affairs.

Medicaid

The state of Florida has several Medicaid programs to help individuals who reside either at home, in a nursing home, or other facility. Each person's needs and financial situation is different. Knowing which benefits a person may be eligible for is key to ensuring assets are not depleted to pay for long-term care.

Veterans benefits

Veterans Benefits can help pay the long-term care costs of a veteran, or their surviving spouse, who is struggling financially. We can help determine who is eligible for these benefits.

Trust Administration

We help trustees develop a strategy for each trust administration. While a properly funded trust can help avoid probate, Florida trustees still have important legal obligations under the trust terms and Florida law. We provide guidance to trustees to help them satisfy their duties with confidence.

Probate

Probate is a court process that generally occurs when a person dies with an asset in their name alone. Remember, probate can happen whether a person dies with or without a Will. We can determine whether probate is necessary and, if so, which type of probate process is the best fit.
